# CARVESTONE CERTIFICATE OF WARRANTY

---

This certifies that the homeowner

**BILL AND SUSAN SMITH**

**1234 MAIN STREET**

has had Carvestone installed by **Allied Outdoor Solutions.**

Allied Outdoor Solutions warrants for a period of one (1) year against any defects in the installation of Carvestone. Upon full payment, Allied Outdoor Solutions provides a seven (7) year, limited, non-transferable, residential warranty covering your Carvestone against chipping and delamination. It does not cover cracking, color or sealer loss, or joint sealant failure. Absolutely no guarantees can be made regarding drainage.

See back of certificate for explanation of exclusions and limitations.

**TERMS AND CONDITIONS:**

Carvestone's seven year warranty is non-transferable and applies only to residential projects. Failure to reseat your project every two years will void the warranty.

**SURFACE EXCLUSIONS:**

Carvestone to be warranted must be applied over surfaces conducive to a proper bond. Examples of surfaces not conducive include, but are not limited to, flagstone surfaces, elevated surfaces, woods, metals, certain tiles including slate, broken or patched sections such as those commonly found along joints or at curbs, and surfaces submerged in water. Carvestone's warranty does not apply when installed over these surfaces.

**CRACK EXCLUSIONS:**

Cracks in Carvestone expose the bond-line and cross-section of the Carvestone material and therefore can occasionally lead to the erosion, chipping, or delamination of nearby Carvestone. Any such defects deemed to result from cracking of the Carvestone or underlying material are not covered under the warranty.

**LIMITATION ON SCOPE OF WARRANTED REPAIRS:**

The boutique quality of Carvestone makes a truly seamless repair impossible. Colors are custom blended and applied onsite, hand-troweled textures will alter from one application or location to the next, and new sealer can be easily distinguished from existing sealer. Allied Outdoor Solutions will attempt to approximate the original surface as closely as possible but makes no guarantee in regards to the degree of resemblance between pre-existing and repaired surfaces. The scope of all warranty repairs will be limited to the immediate location of delaminations and chips, and will not include surrounding areas or stones.
